

CAN YOU

IMAGINE....

Veteran service organizations **proactively outreaching** and supporting all warriors (military, veterans, families and communities)?

Improved coordination between government, business, and non-profit services to provide **holistic warrior care**?

Service **outcome data** to understand the impact on warriors?

WARRIORSERVE™

BY AMERICA'S WARRIOR PARTNERSHIP

This reliable, cost effective and secure information system streamlines the collection and analysis of critical warrior information.

Enables data tracking and reporting while offering more enhanced case coordination, expanded provider reach, increased access, and a refined referral process.

Guarantees that America's Warrior Partnership's solution focused model is utilized to coordinate an effective assessment and plan for each unique warrior within each unique community.

WarriorServe® is the technology that ensures local organizations and communities *know the warrior.*

A dark, grainy background featuring a silhouette of a soldier wearing a helmet and holding a rifle. The soldier is positioned on the left side of the frame, facing right. The overall tone is somber and military-themed.
